Ready to say good-bye to climbing stairs? The 1,800-square-foot Copenhagen puts all everyday living areas on a single level. And with 3 bedrooms and 2 full baths, there's plenty of room to spread out. The owner's site has its own private bath plus a walk-in closet while the second bedroom is tucked away for a restful ambiance, too. The third bedroom/flex space can welcome overnight quests, be used for working remotely, act as a den or library, or serve whatever purpose the household needs. With a kitchen, breakfast area and great room that all flow together, the Copenhagen is a prime example of today's sought-after open-concept layout. Add a sunroom, deluxe spa bath or even a basement to this convenient ranch home.
